

# CARGO CHARGES

The cargo charge must be paid in accordance with the related tariff table for cargo transported by water through port of Turku.

The cargo charge is to be paid either by the Finnish cargo owner, ship's representative, shipping company or other person responsible for the cargo during transport, unless otherwise agreed. Whoever is responsible for the payment of the charge, as specified above, must also provide the harbour with the necessary information to define the charge.

The amount of the cargo charge is based on the gross weight unless otherwise agreed.

When defining the cargo charge, goods categorisation of the Finnish Transport Agency is used as applicable to place the cargo in the correct tariff category.

- The minimum cargo charge payable is **20.00 €**

## CARGO CHARGES

The charge is, in accordance with EU regulations, the same for domestic and foreign traffic, and for import and export. The cargo charge is €/1,000 kg gross, unless otherwise mentioned in the price list.
